

Table 1: Similarity matrix for different simulation method result comparison (tested on randomly generated five-qubit circuit with depth 10 and optimization level 0)

	<i>statevector</i>	<i>density_matrix</i>	<i>matrix_product_state</i>
<i>statevector</i>	100%	97.831%	97.595%
<i>density_matrix</i>	97.831%	100%	97.749%
<i>matrix_product_state</i>	97.595%	97.749 %	100%
